

## SADE SP240

Weight Sorter/Checkweigher for tablets and capsules

### When precision and accuracy count

The SADE SP240 will accurately and quickly sort your batches of tablets and capsules by weight and into accept and reject categories. It is a floor standing unit with two weighing channels each fed by a 60 litre bulk hopper. It can operate over a 24 hour period with minimal involvement allowing your operators to get on with other tasks. Dismantling for cleaning is rapid and it's easy to set up for the next product

### PRODUCTION — Recover valuable product

Enables you to reclaim your weight acceptable product from rejected batches – reducing wastage and cost.

Savings can be made recovering valuable product made during press run-in and run-out stages.

### R&D — Ensures weight uniformity

100% weight checking and statistical analysis of clinical trial or development batches. Ideal tool for checking over encapsulation.
