- 4) Seal the bridge of the nose improves the adhesion of the item
- 5) No falling off, comfortable to wear and the mask is designed with high Strength.
- 6) Perfect for machining, automobile making, sports, running, hiking, climbing, etc.

PRODUCT DESCRIPTION

Effective protection against dust, PM2.5 haze particles and other particles, wind and cold. Suitable for haze, fog, dust, snow or other times you think you need to wear it

ERGONOMICALLY 3D SOLID DESIGNED - Fit the face and ensure tightness. Increase the breathing space of the face mask to make the breathing smooth and breathable

USE - It is recommended to wear a KN 95mask all the time in dusty and polluted environment. Do not touch the inside of the mask to keep it clean. Wash hands before wearing it and Check the tightness to ensure that the mask is in the correct position.

REPLACEMENT - When the respiratory resistance is obviously increased, dirty or damaged, the mask should be replaced

CAUTION – Dust Masks should not be washed with water. Water washing will destroy the structure and filtering performance of electrostatic filter material. Do not sterilize in microwave oven.
